

## **International Public Safety Association Launches a New Cyber Committee**

Goodyear, AZ, May 9, 2017

The International Public Safety Association is pleased to announce its newest public safety committee established to address contemporary issues relating to cybersecurity. This committee will tackle issues from cyber awareness and prevention to understanding threats, response and actions to take for successful recovery of a cyberattack.

IPSA Committees are an opportunity for our Members to roll up their sleeves to develop policies, recommendations, publications and artifacts for the IPSA and the global public safety community.

The IPSA is currently accepting applications from cyber savvy leaders in public safety to serve as Chair of this new committee. An appointment will be made by the IPSA Board once the ideal candidate is identified. <http://www.joinipsa.org/Committees>

### **About the International Public Safety Association**

The International Public Safety Association, a 501(c)3 non-profit organization, was established in July 2014 in the State of Arizona to bring the public safety community closer together by offering opportunities to network, cross-train and build a stronger public safety community capable of an effective joint response to all incidents.
